

# CWS App for Containers

*CWS Logistics has developed an app to assist manufacturers in managing their fleet of 2-way containers and improve the overall accuracy of returning deposits to retails.*

**CWS Logistics has added MAXIMUM stack heights for trailers to ensure the safety of our driver's and warehouse staff. [Click here for examples](#)**

## Which Containers does CWS Pick Up?

CWS Logistics picks up a variety of different containers from the following companies: Bayer CropScience, BASF and IPCO. Please click on each respective logo to see which containers we pick up from each company.

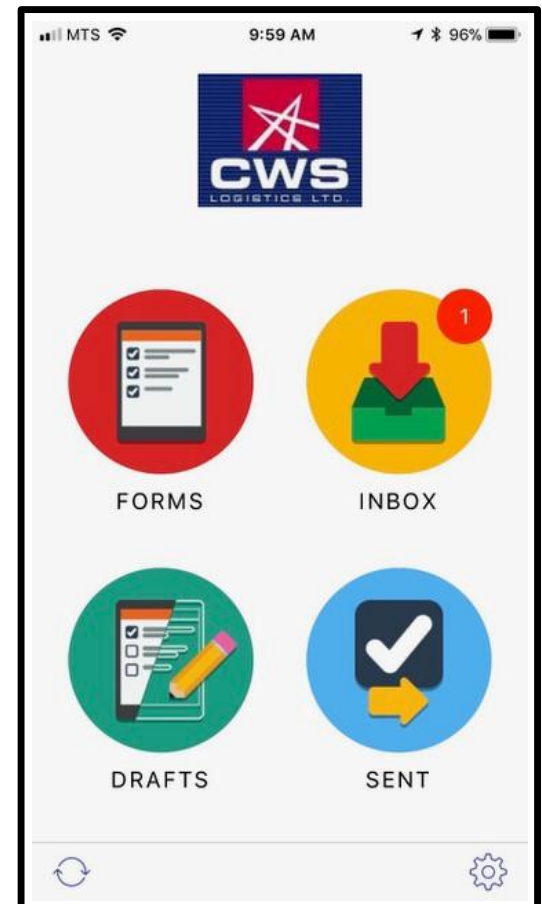

## The Login Process

When logging in, use your AWSA number as the username. For the password there are two possible options, depending on the last update to your account. See below for both examples:

**AWSA # of 222222**  
**User:** 222222  
**Password:** 222CWS222  
**OR**  
**AWSA # of 222222**  
**User:** 222222  
**Password:** CWS222222

Note that the password is case sensitive.

The CWS App can be found on the App Store for iPhones and on the Google Play Store for Android Phones.

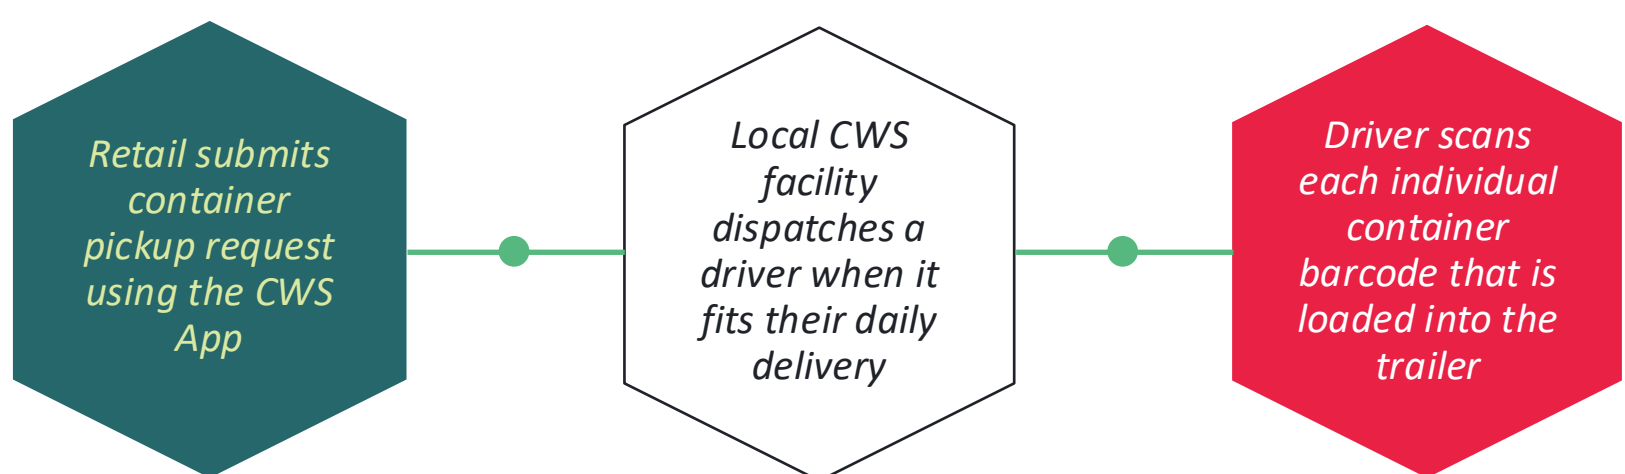

If you have questions about the process of requesting a pickup, or you are having trouble logging in to the app, please click the button below to view our complete instructions sheet.

## How Does The App Work?

**TO PREPARE FOR WHEN A DRIVER ARRIVES, PLEASE SEE THE "DRIVER AT RETAIL" BUTTON**

**AT THE END YOU WILL RECEIVE A PDF FILE WITH INFO ON EACH CONTAINER**

[DRIVER AT RETAIL](#)

If the trailer is full and there are still containers, a new pickup request will be generated automatically.
